Professional Summary

Full-stack developer and entrepreneur with a B.A. in Business Information Systems and hands-on experience building websites, web applications, and digital solutions for small and medium-sized businesses. Combines strong technical expertise in Python, JavaScript, React, Flask, SQL, and modern web technologies with over a decade of customer-facing business experience. Skilled in translating business objectives into scalable software products, delivering conversion-focused user experiences, and managing projects from concept through deployment. Fluent in English and Spanish.

Education

04/2022

○ Bachelor of Arts - Business Information Systems
| **University of Arizona Global Campus**

01/2023

○ Software Engineering Trainee - Practical full-stack development training
| **University of South Florida**
Completed rigorous technical coursework in Python, JavaScript, Flask, SQL, Git, and deployment platforms. Gained real-world experience through collaborative projects, debugging, and clean architecture practices.
